FOR IMMEDIATE RELEASE

Solitaire: Deal & Play brings classic Klondike with proven winnable deals to iPhone and iPad

Draw 1 or Draw 3, three illustrated decks with matching boards, and the bouncing-card finale, out now on the App Store.

HOUSTON, TX, November 17, 2026 — Best ROI Media's Solitaire: Deal & Play, classic Klondike solitaire for iPhone and iPad, is available now on the App Store. Players choose Draw 1 or Draw 3, and either deals proven to be winnable or classic random shuffles. The game was released on October 13, 2026; the current version, 1.0.1, added a one-time purchase that removes ads. Solitaire: Deal & Play is free to download, with ads.

Mitchell Clay, founder of Best ROI Media, said: "Solitaire is a game people come back to every day, so the small things matter: cards you can read, a deal you know you can win when that is what you want, and that cascade of bouncing cards at the end. Before a winnable deal went into the game, we played its solution all the way through."

Cards move by tap, drag or double-tap, and safe cards flow to the foundations automatically. Easy deals come from a bank of deals that were each solved offline and replayed through the game's own rules before they were accepted; Classic deals are unfiltered shuffles. Hints suggest legal moves, and Undo takes back anything, including an automatic collection.

Three illustrated decks, Botanical, Casino and Large Print, each come with a matching board, and Casino and Large Print have original illustrated court cards. The game plays in portrait and landscape on iPhone and iPad, with a left-handed layout and adjustable sound and animation. Every win ends with the classic cascade of 52 bouncing cards and a trophy screen with the real time, moves and winning streak. The current hand and statistics save on the device, so a game can be picked up where it was left.

KEY FEATURES

- **Classic Klondike:** Draw 1 or Draw 3.
- **Winnable or classic:** proven winnable deals, or random shuffles.
- **Three illustrated decks:** Botanical, Casino and Large Print, with matching boards.
- **Easy controls:** tap, drag or double-tap, automatic collection, hints and undo.
- **Made for both:** portrait and landscape on iPhone and iPad, and a left-handed layout.
- **A proper finale:** bouncing cards and a trophy screen with your real time, moves and streak.
